*If any of the rights in the application have been licensed or transferred
to another entity, then all other entities having such rights much also qualify as small
entities in order for the applicant to be considered a small entity.

**A small business concern is one that has fewer than 500 employees,
including employees of its "affiliates." Concerns are affiliates of each other when
directly or indirectly one concern controls or has the power to control the other, or a
third party or parties controls or has the power to control both. The number of
employees is determined by counting the number of people the concern and its
affiliates employed on a full time, part-time, or temporary basis during the concern's
previous fiscal year.
